Action RPG Battle System Specifics

- If you are encountering lots of monsters while on a journey, the game adopts a persistent system that will continue to fight at just the moment when you are at the lowest level of your available SP. Therefore, the player can never have the feeling of being helpless when facing the danger. This is also the moment for you to use an action for your first move. This is a typical for this game feature.
- The characters known as Fanatics have various levels of skills and attribute points. You are able to raise their skill and attribute points by earning EXP during the fight.
- * Dynamic ROLE ALLOCATION Your roles may be fully transformed by the more you level (out of the 3 roles available on the start-up)
 - Your role will grow and the nature of your active action will change dynamically.
 - Dedicated role from start of the game can be saved if forgotten during play.
 - This is the first in the game, where the player is not limited to the F3 of the opponent character.
 - Players do battle by selecting an enemy and performing an attack action.
 - When the attack effect occurs, the entire party takes action and performs a combo. The player has the ability to perform a teleport action for every possible turn.
 - In order to maximize the cooperation of the roles, you can use the role of another combatant to perform a combo and attack actions.
 - Now you can fight as 2 or 3 characters!
 - Even if just the SR appears, you can perform only the action of the SR, but can perform only the action of the SR equipped.
 - When you perform an action with the SR, you can also perform an action with the SR itself.
 - The role allocation system

«This is a game that isn't afraid of the orthodox way of playing a fantasy RPG. The gameplay offers a mixture of the action-RPG and the role-playing game. The combination of those elements makes every action in the game so exciting and visceral. »... » This game has a great combat system that allows you to attack with different combinations of weapons and abilities at the same time. For example, if you have the guns equipped, you can pick up an Ax, then use the Ax's power to perform a powerful combo that will break the enemy's defense. The good thing about this game is that you are free to choose your attacks based on the situation you are in, so you won't have to worry about repeating the same actions over and over again. »... » ELDEN RING has plenty of dungeons to explore. There are several areas that you can go to, each one with a different look and feel, with lots of weapons and items to find. In addition to that, there are also a lot of interesting dialogues, and there are many things to see and do in these dialogues. As you progress through the game, you'll be able to easily see how the characters develop. It is easy to get a strong attachment to the characters, as their thoughts and feelings are so well portrayed. »... » One of the aspects I liked the most about ELDEN RING is that you won't have to wait long in battles, as most of the time you can start fighting right away. Sometimes the battles can be very intense, and sometimes you can't attack because there are too many enemies, but that doesn't always happen. »... » ELDEN RING is an action-RPG that is very entertaining, and you are going to enjoy playing it. This game is certainly not a traditional fantasy RPG, but it is a good action-RPG that is well-conceived and well-made.»
[Review by SGF-SELF3 / August 15th, 2018] «The basic aspects of what you need to know to get started in ELDEN RING are all laid out for you right from the start. The heroes are all quite generic, but they're easy to relate to, and they're all quite likeable, which makes it easier to connect to the story. Even the class-based progression is present, but it's a bit simplified for the sake of keeping the game around 50-60 bff6bb2d33

Fri, 08 Dec 2016 10:34:06 +0000Fri, 08 Dec 2016 10:34:06 +0000New World Generation - Roqa>To start I'm making a new world that serves several purposes. The first is that it's a good starter world for those who join SAO for the first time. I wanted to use a basic atmosphere with mountains and desert in an easily accessible format. I probably started with about 1000+ sq ft and probably need a at

least 515 sq ft to make it a huge world. There is a cave connecting to the outside world in the southwest. I plan on using this in one of the missions which will take players inside the cave on a treasure hunt. It's also connected to several major rivers for the beginning. There is also a valley near the north east that runs down into the sea. Near this valley is a large desert which i have named the Redshore Desert. This is connected to the Mojave Desert which is also accessible from the starting point and a grassland area in the northwest which has various missions. I'm planning to go heavy on forests in the north to accommodate my next project. More info coming in the days to come.

Sat, 09 Nov 2016 15:53:29 +0000We played a Japanese VAO today>Ok, we had a group of Makers and I played. When I started the game we had zero players. The player turned out to be incapable of the game and went AFK. After a while about 8-10 people played and we found 5 players-on-1 boss. However, after playing we never saw one of our player-on-boss again. Tell me what is wrong with the
